

#### MMS1X00-NS400-C

Mellanox® MMS1X00-NS400 Compatible TAA 400GBase-DR4 QSFP112 Transceiver (SMF, 1310nm, 500m, MPO, DOM) CMIS 5.0

### **Features:**

- Compliant with IEEE Std 802.3bs and 802.3ck on 400Gbps Optical and Electrical Interfaces
- Compliant with 400G-DR4 Optical Specifications
- 4x106.25G PAM4
- MPO-12 Receptacles
- CMIS 5.0 Interface
- Transmission Distance: Up to 500m SMF
- Compliant with QSFP112 MSA
- Single 3.3V Power Supply
- Operating Temperature: 0 to 70 Celsius
- RoHS Compliant and Lead-Free

### **Applications:**

- 400GBase Ethernet
- Access and Enterprise

## **Product Description**

This Mellanox® QSFP112 transceiver provides 400GBase-DR4 throughput up to 500m over single-mode fiber (SMF) using a wavelength of 1310nm via an MPO connector. It is guaranteed to be 100% compatible with the equivalent Mellanox® transceiver. This easy to install, hot swappable transceiver has been programmed, uniquely serialized and data-traffic and application tested to ensure that it will initialize and perform identically. Digital optical monitoring (DOM) support is also present to allow access to real-time operating parameters. This transceiver is Trade Agreements Act (TAA) compliant. We stand behind the quality of our products and proudly offer a limited lifetime warranty.

ProLabs' transceivers are RoHS compliant and lead-free.

TAA refers to the Trade Agreements Act (19 U.S.C. & 2501-2581), which is intended to foster fair and open internaltional trade. TAA requires that the U.S. Government may acquire only "U.S.-made or designated country end products.")

# **Absolute Maximum Ratings**

| Parameter                  | Symbol | Min. | Тур.   | Max. | Unit | Notes |
|----------------------------|--------|------|--------|------|------|-------|
| Storage Temperature        | Tstg   | -40  |        | 85   | °C   |       |
| Operating Case Temperature | Тс     | 0    | 25     | 70   | °C   |       |
| Relative Humidity          | RH     | 15   |        | 85   | %    |       |
| Supply Voltage             | Vcc    | -0.5 |        | 3.6  | V    |       |
| Data Rate                  | DR     |      | 53.125 |      |      |       |
| Modulation Format          |        |      | PAM4   |      |      |       |

## **Electrical Characteristics**

| Parameter                     | Symbol            | Min.  | Тур. | Max.  | Unit  | Notes    |
|-------------------------------|-------------------|-------|------|-------|-------|----------|
| Power Supply Voltage          | Vcc               | 3.135 | 3.3  | 3.465 | V     |          |
| Power Supply Current          | Icc               |       |      | 2.55  | А     |          |
| Power Dissipation             | P <sub>DISS</sub> |       |      | 8     | W     |          |

| 38  | GND          | Transmitter Ground (Common with Receiver Ground). | 1             | 1     |

#### Notes:

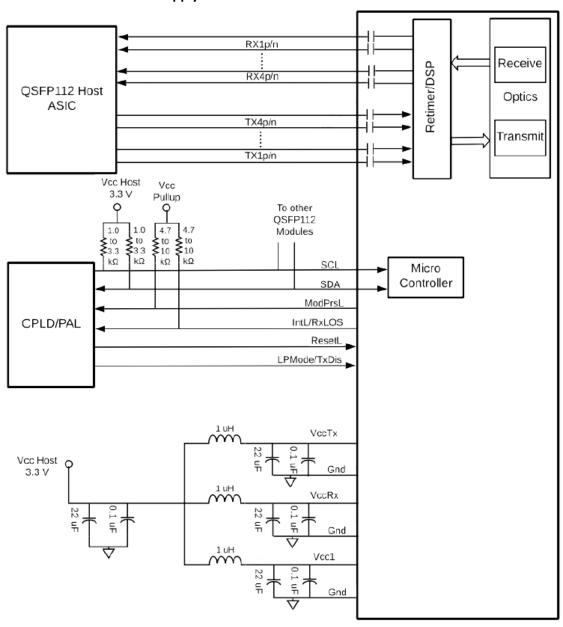

- QSFP112 uses common ground (GND) for all signals and supply (power). All are common within the QSFP DD module, and all module voltages are referenced to this potential unless otherwise noted. Connect these directly to the host board signal common ground plane. Each connector GND contact is rated for a maximum current of 500mA.
- 2. This is an open collector/drain output that, on the host board, requires a  $4.7k\Omega$  to  $10k\Omega$  pull-up resistor to the Host\_Vcc.
- 3. VccRx, Vcc1, and VccTx shall be applied concurrently. For power classes 4 and above, the module differential loading of input voltage pads must not result in exceeding contact current limits. Each connector Vcc contact is rated for a maximum current of 1500mA.

#### **About ProLabs**

Our experience comes as standard; for over 15 years ProLabs has delivered optical connectivity solutions that give our customers freedom and choice through our ability to provide seamless interoperability. At the heart of our company is the ability to provide state-of-the-art optical transport and connectivity solutions that are compatible with over 90 optical switching and transport platforms.

### **Complete Portfolio of Network Solutions**

ProLabs is focused on innovations in optical transport and connectivity. The combination of our knowledge of optics and networking equipment enables ProLabs to be your single source for optical transport and connectivity solutions from 100Mb to 400G while providing innovative solutions that increase network efficiency. We provide the optical connectivity expertise that is compatible with and enhances your switching and transport equipment.

#### **Trusted Partner**

Customer service is our number one value. ProLabs has invested in people, labs and manufacturing capacity to ensure that you get immediate answers to your questions and compatible product when needed. With Engineering and Manufacturing offices in the U.K. and U.S. augmented by field offices throughout the U.S., U.K. and Asia, ProLabs is able to be our customers best advocate 24 hours a day.
